LET'S GET SOCIAL

EXPERIENCE

BIG SISTERS OF BC LOWER MAINLAND

March 2016 - Present

My group and I collaborate with UX designers to build a custom WordPress theme that would better reflect the Big Sisters brand personality.

Key points include:

- + Working with AJAX to integrate with Instagram's API to dynamic load Big Sisters' recent photos
- + Using custom fields and PHP loops to enable the client to easily edit content in wp-admin
- + Incorporating multiple content carousels to add a dynamic feel
- + Including collapsible content panels using jQuery to reduce clutter
- + Constructing site by applying a responsive web design (mobile first approach)

RED ACADEMY INDIVIDUAL PROJECTS

January - March 2016

- + Aloha Apparel - Created a mobile first responsive home page with a bxSlider to display products
- + Instagrid - Built a responsive web page that uses AJAX to integrate with Instagram's API, allowing most recent images to display
- + Mars Quiz - Developed a simple React application that uses a timer to test your worthiness of Mars exploration
- + Mars App - Developed an Angular application where GET and POST data interactions are used with our internal API to report alien encounters
- + Le Red Bread - Created a custom WordPress theme using custom page templates, custom taxonomies and plugins

BAZINGA! TECHNOLOGIES - Customer Success Coordinator

April - October 2015

201 - 225 Smithe Street, Vancouver

- + Met with clients to understand their business and technology needs
- + Onboarded project details and trained clients on best practices when using app
- + Provided customers support across Canada via email, over-the-phone or on-site
- + Documented key customer information and interactions within Zendesk and Salesforce

EVENTSAGE - Marketing Coordinator

June - September 2014

324 - 309 West Cordova Street, Vancouver

- + Inputted, organized and managed a database of over 300+ suppliers
- + Shared compelling content on social channels
- + Engaged with Eventsage's community of followers
- + Maintained an awareness of industry issues and trends, particularly in accessibility, usability and emerging technologies
